

TITLE OF THESIS (should be 16 Font size, Uppercase and centered)

by (14 Font size)

NAME IN BLOCK LETTERS (14 Font size)

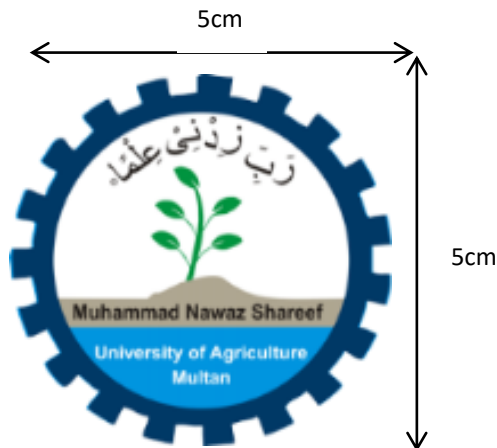

Registration No. (14 Font size)

A thesis submitted in partial fulfillment of the requirement for the degree of (14 Font size)

Master of Science (Honors)/ Doctor of Philosophy

in

Discipline Name (14 Font size)

DEPARTMENT/ INSTITUTE NAME (16 Font size)

FACULTY NAME (16 Font size)

MNS UNIVERSITY OF AGRICULTURE

MULTAN (16 Font size)

(2023) (14 Font size)

AUTHOR'S DECLARATION (16 Font size)

I _____ hereby state that my MS/MSc(Hons)/Ph.D. thesis titled _____ is my work and has not been submitted previously by me for taking any degree from this University _____ or anywhere else in the country /world. I further declare all contents are product of my research and no part has been copied from any published source (except the references, standard mathematical or genetic models/ equations/ formulae/ protocols, etc.). At any time if my statement is found to be incorrect even after my graduate the university has the right to withdraw my MS/MSc(Hons)/Ph.D. degree". (12 Font size)

Name of Student:- _____

Registration No.:- _____

Date:- _____

Signature _____

To,
The Controller of Examination
MNS University of Agriculture, Multan

We, the Supervisory Committee certify that the contents and the form of thesis submitted by **Student name (Regd. No.)** research project entitled “_____” have been found satisfactory and recommend that it be processed for evaluation by the External Examiner(s) for award of the degree. (12 Font size)

(Name)

CERTIFICATE FOR APPROVAL (16 Font size) **(For Ph.D)**

This is to certify that the research work presented in this thesis, entitled _____ was conducted by Mr/Ms. _____ under the supervision of _____. No part of this thesis has been submitted anywhere else for any other degree. This thesis is submitted in partial fulfilment of requirements for the degree of _____ Institute/Department _____ of MNS University of Agriculture, Multan. (12 Font size)

PLAGIARISM UNDERTAKING (16 Font size)

I solemnly declare that the research work presented in my thesis titled _____ is solely my research work with no significant contribution from any other person. Small contribution/help wherever taken has been dully acknowledged and that complete thesis has been written by me. I understand the zero-tolerance policy of the HEC and MNS University of Agriculture, Multan towards plagiarism. Therefore I as an author of the above-titled thesis declare that no portion of my thesis has been plagiarised and any material used as reference is properly referred/cited.

I undertake that if I am found guilty of any formal plagiarism in the above-titled thesis even after the award of my MS/MSc(Hons)/Ph.D. degree, the University reserves the right to withdraw/revoke my MS/MSc(Hons)/Ph.D. degree and that the HEC and the University have the right to publish my name on the HEC/ University website on which names of students are placed who submitted plagiarized thesis. ABSTRACT (16 Font size)

The structure of the abstract should mirror the structure of the whole thesis and should represent a brief description all its major elements.

Text (250-600 words)

Keywords:

(12 Font size)

CHAPTER 1 (16 Font size)

GENERAL INTRODUCTION (14 Font size)

General introduction should contain the brief background of the selected topic in a general way. It must identify the importance of the study, problems and their solutions, justification of the methodology proposed in the experiment(s). It should contain a review of the literature showing the work done previously in the area of the proposed research to plan further research effectively through identifying the research gaps. The information given in the review should be supported by references. It should give a theoretical base for the research and help you (the researcher) determine the nature of your research. (12 Font size)

1.1. Problem statement (14 Font size)

It is the description of an issue currently existing which needs to be addressed as per research gaps identified through literature review. It provides the context for the research study and generates the questions that the research aims to answer. (12 Font size)

1.2. Hypothesis (14 Font size)

1.3. Objectives (14 Font size)

Objectives inform the reader clearly what the researcher plans to do in his/her work. The objective should start with an action verb and be sufficiently specific, measurable, achievable, and relevant and time-bound (SMART). (12 Font size)

CHAPTER 2 (16 Font size)

TITLE OF EXPERIMENT (Bold and Uppercase 16 Font size)

2.1. Introduction (14 Font size)

It should contain background only related to experiment 1. It should not contain a review of the literature however; information presented should be supported by citing relevant reference(s) wherever necessary. (12 Font size)

2.2. Materials and methods OR Methodology (14 Font size)

Name and place where the research works was conducted. Mention all material and methods (procedures, protocols, equations, formulae etc.) along with the appropriate study design. This section should also indicate all possible details related to experimental layout design with number of replications and detail of treatments, sample size for data recording, parameters, computational/software approaches. In the case of social sciences, for qualitative study or case study, all details related to data recording for all parameters with appropriate approaches. (12 Font size)

2.2.1. Ethical considerations/ approval (If any) (12 Font size)

2.2.2. Sub-headings (Related to any method procedure or other items as per requirement) (12 Font size)

2.2.3. Statistical analysis (12 Font size)

Mention appropriate statistical method and approach for analyzing data to meet the objective(s) of the experiment. (12 Font size)

2.3. Results (14 Font size)

2.3.1. Sub-headings (As per requirement) (12 Font size)

Describe the study results including figures, tables, and graphs to elaborate on the key findings. Write captions below the figures and tables. Mention the figure and table number in text.

Table 2.1: Give caption of the table (12 Font size)

Figure 2.1: Give caption of figure (12 Font size)

2.4. Discussion (14 Font size)

It should be only related to the findings of experiment 1. Compare the results of the present objective with previous studies, explain and draw inference from results, and give logical explanations of the results supported by references.

(12 Font size)

CHAPTER 3 (16 Font size)

TITLE OF EXPERIMENT (Bold and Uppercase 16 Font size)

3.1. Introduction (14 Font size)

It should contain background only related to experiment II. It should not contain a review of the literature however; information presented should be supported by citing relevant reference(s) wherever necessary. (12 Font size)

3.2. Materials and methods OR Methodology (14 Font size)

Name and place where the research works was conducted. Mention all material and methods (procedures, protocols, equations, formulae etc.) along with the appropriate study design. This section should also indicate all possible details related to experimental layout design with number of replications and detail of treatments, sample size for data recording, parameters, computational/software approaches. In the case of social sciences, for qualitative study or case study, all details related to data recording for all parameters with appropriate approaches. (12 Font size)

3.2.1. Ethical considerations/ approval (If any) (12 Font size)

3.2.2. Sub-headings (Related to any method procedure or other items as per requirement) (12 Font size)

3.2.3. Statistical analysis (12 Font size)

Mention appropriate statistical method and approach for analyzing data to meet the objective(s) of the experiment. (12 Font size)

3.3. Results (14 Font size)

3.3.1. Sub-headings (As per requirement) (12 Font size)

Describe the study results including figures, tables, and graphs to elaborate on the key findings. Write captions below the figures and tables. Mention the figure and table number in text.

Table 3.1: Give caption of the table (12 Font size)

Figure 3.1: Give caption of figure (12 Font size)

3.4. Discussion (14 Font size)

It should be only related to the findings of experiment 2. Compare the results of the present objective with previous studies, explain and draw inference from results, and give logical explanations of the results supported by references. (12 font size)

CHAPTER 4 (16 Font size)

GENERAL DISCUSSION (14 Font size)

It should cover the findings of all experiments. Compare the results of the present objective with previous studies, explain and draw inference by integrating and correlating results of different experiments, and give logical explanations of the findings supported by references. (12 Font size)

CHAPTER 5 (16 Font size)

SUMMARY (14 Font size)

Summary should contain brief information on justification of the study, methodology used, important results/ key findings and their explanation, recommendations for the scientific community and stakeholder. This section should include conclusion of the study focusing on the major outcomes, recommendations based on conclusion, study limitations with potential influences on findings and future thrust.

Citation in text:

Please ensure that every reference cited in the text is also present in the reference list (and vice versa). Include the latest references by using an endnote or any other reference manager. In the text, references should be placed in round brackets (), and placed before the punctuation with italics *et al*; for example (Dinh *et al.*, 2006), (Deep *et al.*, 2013; Kaldhusdal *et al.*, 2016), (Ali and Khan, 2020), (Ali, 2019). In text try to avoid sentence start with scientist name if necessary than add as Ali and Khan (2020) studied..... In the reference list, the reference style should be according to **Pakistan Journal of Agricultural Sciences** in hanging style alphabetically arranged as given below.

For a journal article:

Ul-Rahman, A., M. A. B. Shabbir, M. W. Aziz, S. Yaqub, A. Mehmood, M. A. Raza, and M. Z. Shabbir. 2020. A comparative phylogenomic analysis of SARS-CoV-2 strains reported from non-human mammalian species and environmental samples. *Mol. Biol. Rep.* 47(11): 9207-9217.

Appendix:

NOTE: Add any table or figure for supplementary data from the thesis. (12 Font size)

Thesis preparation guidelines:

- Margins of page should be 1 inch with odd page numbers will be 1.25 inches at left.
- Not less than 75 pages without an appendix
- Line spaces should be 1.5
- Font style should be Time New Roman
- Double-sided print
- All tables and figures should be according to instructions
- **Note:** In case of MS/ MSc(Hons) thesis, if study is comprised of only one experiment then follow the layout given below
 - Chapter-1: General Introduction
 - Chapter-2: Experiment Title
 - Short Introduction
 - Material and Methods OR Methodology
 - Results
 - Chapter-3: General Discussion
 - Chapter-4: Summary
 - References
 - Appendix (if any)

Thesis submission guidelines:

- Semi-final thesis
 - Two copies of tape binding
 - Submission of E-30 form
 - Thesis observation form
 - Thesis submission fee-paid challan
 - Copy of scientific writing training certificate
 - Attested (supervisor) copy of logbook of laboratory where research was conducted
 - Copy of laboratory notebook with the signature of researchers and supervisor on pages
 - Check list
- Final thesis
 - Plagiarism/Similarity report notified by QEC
 - Two copies of tape binding
 - Submission of PhD thesis defense evaluation performa
 - Submission of all necessary certificates given in instruction manual
- Hard copy thesis
 - Page weight should be 80 grams

- Three copies
- Thesis soft copy (both in word and pdf format) via email to dgs@mnsuam.edu.pk
- Annotated reply on foreign and internal examiner's comments (For Ph.D)
- Evidence of research article submission to journal (For MS/ MSc(Hons))
- Blue color hard binding with golden printing (For MS/ MSc(Hons))
- Maroon color hard binding with golden printing (For Ph.D)
- Submission of 2 news articles (one in English and one in Urdu) (For Ph.D)
- Submission of research articles as per HEC criteria (if published) (For Ph.D)
