## The City of Multan

On the banks of river Chenab, there lays a city which is holy to many people in Pakistan, famously known as the “city of saints”. Formerly known as Kashtpur, Multan is the birthplace of Farriduddin Ganjshakar, the first poet of the Punjabi language. If Multan is a birthplace of Baba Farid, it is the resting place for many Sufis like Sheikh Bahauddin Zikria, Bibi Pak Daman, the miraculous Shah Shams Tabrez and Shah Rukn-e-Alam. It is the sanctity of these shrines that drive people from the suburbs of Multan to take off their shoes as soon as they enter the premises of this city. This city has its roots in Delhi Sultanate and Mughal Empire. Along with tombs, there are famous and historically significant mosques in Multan like; Jamia Mosque, the first mosque to be built in there by Muhamamd Bin Qasim who conquered this city, Sawi Mosque, Mosque Baqarabadi, and Mosque Ali Muhammad Khan. Taking in account the history of this city, one cannot forget to mention the famous gates of Multan known as Lohari Gate, Pak Gate, Haram Gate, Daulat Gate, Bohar Gate and Delhi Gate. Old bazars like Hussain Agahi, narrow streets that blanket these gates add to the richness of cultural heritage of this city. From Qilla Qasim fort to the Ghanta Ghar chowk, or Clock tower, there is a patch that covers the history of this city from old sufi saints to the influx of British Raj in the subcontinent.

Talking about mementos of Multan, the first and the foremost thing to be mentioned is blue pottery. The Multani kashi is influenced by Mongolian art and was introduced by local craftsmen of Multan. Ustad alam institute of Blue pottery is the oldest factory equipped with modern machines for stone grinding, ceramic moulding, painting and firing. The place provides on the job training opportunity to learn pottery and Kashigari. The institute is owned by Ustad Muhammad Alam, the acclaimed artisan of Kashigari. He has a career of over 60 years in the craft and has bagged many prizes including Presidential Award and UNESCO award. Shades of dark blue and turquoise and repetition of patterns are hallmark of blue pottery ceramics. Architects have used these patterns and lethal color combinations to adorn the shrines of Bahauddin Zikria, shah rukn-e-alam and buildings like beautiful eid gah mosque and many more. Multani sohan halwa is the second most famous thing used as a souvenir over decades. Founded by Hafiz Ahmad din in 1930, sohan halwa is considered to be the healthiest and the most scrumptious dessert of the subcontinent. Another gift for the palates of people in Pakistan and all over the world is the king of fruits: The Mangoes. Mango orchards on the eastern side of the city blossom throughout the summer season. Out of 150 varieties of mangoes grown in Pakistan, major production of it is carried out in Multan. Anwar ratol, Langra, Dussehri, and the most popular one Chaunsa, all are grown in Multan. The ripening season of Chaunsa lasts from July till late August. The season of Pakistani mangoes usually begins in the month of May and lasts till September.

Multan has second oldest medical institute built by Sardar Abdul Rab Nishtar, known as Nishtar hospital, which was extended to Nishtar medical college and known as Nishtar medical university today. It has various departments and considered to be Punjab's largest hospital in terms of area. Talking about old institutes in Multan, let's not forget Bahauddin Zikria Univeristy (BZU) named after scholar and saint Bahauddin Zakariya. Built in 1975, BZU is one of the largest Universities in Punjab. Another gigantic structure that adds to the beauty of this city is the state bank building located near Multan Art's Council. This building was completed in 1998 and is an epitome of modernity and adroit architect.

Paving its way from culturally rich historical background to portraying the modern era, Multan has covered a vast journey. Modern day Multan is diverse, developed and modernized with factories, industries, educational institutes, malls, hotels and well-developed system of roads. While mentioning industries of Multan, Pak-Arab Fertilizers Company is the largest name to be mentioned. Developed 38 years back, it is the only fertilizer company in Pakistan that produce compound fertilizer. Housing societies like DHA, has helped the city to cover another mile towards development. Within the span of 10 years, there are many educational institutes that are building their campuses in Multan taking the standard of education in the city to the next level. MNS-university of Agriculture is one of them. MNS-UAM started its degree programs in 2013 and within a period of 8 years, today university has a state of the art campus which is equipped with modern instruments to revolutionize the study in the field of agriculture. Highly qualified staff and intricate vicinity of the campus makes it one of the best institutes in Multan. A city which is older than time and developed to meet the challenges of modern day is worth commending and is an absolute mark on the map of Pakistan.

## **MNS University of Agriculture**

The MNS University of Agriculture, Multan (MNSUAM) is an HEC recognized higher education institution established in 2012. Within a short span of time, the University has made rapid progress in terms of expanding its academic programs, students' enrolment, physical infrastructure, campus network, and hiring highly qualified and experienced academic and administrative staff. As a matter of fact, MNSUAM is considered as one of the fastest growing academic institutions of Pakistan, which is evident in the reports and comments made by officials from HEC, NAEAC, Agriculture Department, Representatives of the Government, and local and foreign experts, who visit the varsity from time to time. The main campus of the University is located at Old Shujabad Road, Multan, neighboring several different wings and formations of Punjab Agriculture Department positioned within a radius of 2-3 kilometers. These include Mango Research Institute, Central Cotton Research Institute, Cotton Research Station, Agricultural Mechanization Research Institute, Soil and Water Testing Laboratory, Directorate of Water Management, Agricultural Extension Wing, Pest Warning and Quality Control of Pesticides, Fisheries Department, Federal Seed Certification and Registration Department. All these offices and the University have combined into an "Agriculture Complex" with a common agenda of facilitating the farming community of the region.

The University's main campus is spread on an area of 180 acres at a prime location in Multan and consists of purposefully built buildings including Academic Block, Administration Block, Girls and Boys hostels, Library, Faculty and Staff residences etc. For carrying out agricultural research activities, the University has established a separate graduates block, centralized labs system, agricultural farms at the main campus as well as at Jalalpur Pirwala comprising 500 acres.

Over the years, the University has introduced several new degree programs to provide multidisciplinary education to the students with innovative approaches. Besides Bachelor's level degree programs in Agriculture, Agribusiness, Computer Science and Information Technology, the University also offers F.Sc. Pre-Agriculture, and M.Sc. and Ph.D in various disciplines of Agricultural Sciences. The University has also started B.Sc. (Hons.) Human Nutrition and Dietetics, B.Sc. (Hons.) Poultry Science, B.Sc. Agro-industrial Engineering Technology, whereas 6 new undergraduate degree programs and 5 MS/M.Sc./PhD programs are being initiated this year.

The University has strengthened its teaching resources by hiring new qualified faculty through regular, TTS and IPFP appointments following a transparent and rigorous process of recruitment. The administrative offices have also been manned with qualified and experienced staff members to provide necessary support to the University for carrying out its functions. The University has instituted a Center for Agricultural Sustainability in South Punjab (CAS-SP) and Department of Outreach and Continuing Education this year to strengthen its research and outreach initiatives. The Office of Research, Innovation and Commercialization (ORIC) is working for capacity building of the faculty for enhancing research activities. The Quality Enhancement Cell (QEC) is mandated to ensure quality teaching and research through continuous assessment for better outcomes. The Directorate of Students Affairs provides all necessary support to students with respect to their admission, selection of subjects, registration, financial support etc., whereas the Career Development Center helps them find suitable jobs after completion of their degrees. It is worth mentioning here that the University manages more than 60 percent of its final semester internships as paid internships which provide an excellent learning environment to the young graduating students. Furthermore, overwhelming employability of MNSUAM graduates in the private sector shows the competitive strength of the university graduates.

The University regularly conducts national and international events including conferences, seminars, workshops, and festivals. Some activities have now become the trademark of this University such as Sino-Pak International Cotton Conference, Spring Festival, Kisan Mela, Fish Mela, Annual Cotton Seminar and Mango Festival. The University has the honor of among the top 5 teams in the national Microsoft Imagine Cup during the last two consecutive years. Acknowledging the efforts for developing a Sustainable Campus, the UI GreenMetric World University Rankings 2020 has ranked MNSUAM at number 3 among the universities across Pakistan. With a vision to highlight a positive image of our country onto the canvas of the world and lure international markets for bilateral trade, investment and business, the University is actively playing its part to explore new horizons for economic betterment of Pakistan.
