INTRODUCTION

Muhammad Nawaz Shareef University of Agriculture, Multan (MNS-UAM) is located on Old Shujabad Road, Multan. It was established in 2012 and has been recognized by Higher Education Commission, Pakistan. Multan is famous for the production of cotton and export mango. Furthermore, soil and environmental conditions of this area are also suitable for growing many other agricultural crops. The Southern Punjab was lacking a full-fledged agricultural University and to address this problem, Chief Minister of Punjab announced the establishment of Muhammad Nawaz Shareef University of Agriculture, Multan (MNS-UAM) on 31st July, 2012. The University is currently performing its academic activities in a building located on Old Shujabad Road, Multan

Sustainability Goals

- ❖ Create awareness among community about the cleaning of environment and protect it from pollution.
 - ❖ Providing Healthy organic vegetable nursery plants to the community to promote the kitchen gardening activity
 - ❖ Promote the tree plantation activity to enhance the afforestation.
 - ❖ Usage of Bicycles in campus to promote Zero Emission Vehicle Policy.
 - ❖ Organize events related to Social Harmony.
 - ❖ Working on health and well-being of the community at large.

Water Conservation

Water is life and it should be used carefully. There are many parts of the world and in our country where people do not get clean drinking water and are forced to drink unclean and unhealthy water. Future shortage of water is evident such as lower water levels, increasing salinity and drying rivers. It is extremely important that we start understanding the seriousness of this issue and adopt measures to conserve water. MNS-UAM also promotes the judicious use of water.

- Use of Filtered Water in the campus
- Try not to utilize drinking water for plants and washing
- Make mindfulness about water preservation
- Utilize water of rain Utilize Low-flush or Dual flush frameworks in restrooms
- Do whatever it takes not to utilize running water specifically
- Never keep water running when not utilized
- Consistently check spillages in the water supply and places of water utilize

Parking & Transportation

MNS-UAM is focusing on international standard parking facilities. University have a policy to strengthen the pedestrian path ways. In future, university is planning to distribute bicycles among the students to implement the Zero emission vehicle policy.

- MNS-UAM administration is enhancing the Pick and Drop path to lessen the time.
- University promotes the shuttle service for transportation of students, staff and faculty.
- Pedestrian path policy is designed for convenience.
- University is discouraging more area under parking shed.
- Improving management of Parking areas to minimize traveling of vehicles in these areas

Recycling & Waste Treatment

- MNS-UAM is providing reusable water bottles to students for plantation.
- Providing Filtered Water and eliminating bottled water
- Isolation of waste materials for reusing, reuse, and transfer
- Printing smarter
- Focusing on installation of waste bin for separate collection of organic and inorganic waste.

Flow of Organic Waste Treatment

Autoclaving

Incineration

Dumping

Thankyou !

For your kind attention.
